the Content Area planning grid above to ensure all University general education requirements are met.

This includes some space for 3000-level Business courses that are open to Business students with sophomore standing (see page 2). These courses are not required to be taken in the sophomore year to stay on track. Some 3000-level Business courses have multiple criticals as prerequisites, so if a student plans to take them in the sophomore year, it will likely require an adjustment to the critical sequencing. Decisions to include these courses in a student's sophomore year should be made in consultation with their Academic Advisor.
